Why do we need SLH? Because it gives a modular description of how localized quantum systems interact with propagating quantum field

Phase 1 1 input - output relation
2 Quantum stochastic Diff equation
3 SLH time evolution and SLH triple
4. Network Hei...

Phase 2: Cascaded system
SLH composition Rules

Phase 3 classical linear sys ...
Passive Liner
Active

Phase 4: Realistic
Emission, circulator, Bi-dir
dispersive Prep, Modeling distrib...

Phase 5 Non vacuum quantum field
Non-vacuum input
Alternatives

Phase 6: Broader application
SLH and Scat
Integrated Qu...
